

**MITES CONTROLLER**

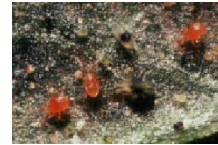

**HERBAL BASED**

# Mitigone

**MITICIDE**

**Mitigone** is a mixture of herbal chemicals which have biological and toxicological properties. It is a blend of insecticidal / miticidal compounds derived from biological and organic substances. The compounds act as an insecticide by interfering with the nervous system of the insect. This nervous system effect causes the insect to become paralyzed. It is used to control spider red mites, Yellow mites in cotton, vegetables, fruits, horticulture and trees.

## SOLUTION FOR:
